Importance: High

Ryne/TJ:

Use this version. I took out the word "biotic" from the last bullet on Table 1C. Also, upon reflection, It may be better to remove the phrase, "based on past experience" from the "Cost savings are expected to be small" sentence.

Sorry for the last minute updates

Russ

Hi TJ,

Russ got back to me and said he thought this looked good and didn't have anything to add or delete. I've attached the updated version for you to run through your branch and Tim.

Thanks,
Ryne

Subject: Biostimulants Guidance - Cost Savings piece

Hi TJ,

BPPD reached out to the Regions for their review, and they had relatively minor comments. I've incorporated some additional sections based on expectations for these types of guidances, and attached is the updated guidance. Based on what I've seen in other guidances, I think we can incorporate our brief cost savings information near the end after the paperwork burden section – I have a comment bubble where I think it can go. I'm not sure if I have something already prepared to add, but I think this is ready for any info you can include in the document. Please let Russ and me know if you have any questions.

Thanks,
Ryne
